

Barrel Tipper

The Intersteel Barrel Tipper is designed for those who have spare drums taking up space. The Intersteel Barrel Tipper, allows for a standard 55-gal drum to be used as a garbage collection container; and can transport the drum with a forklift to a larger collection container, such as a front load container or dumpster for emptying.

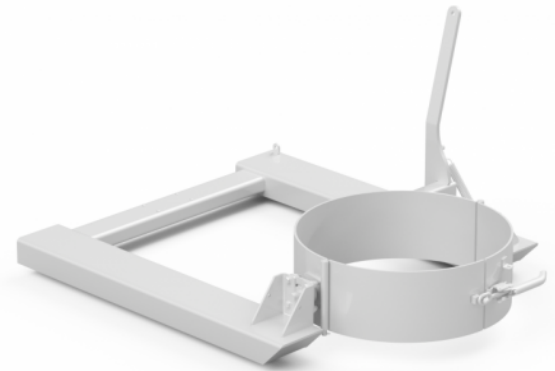

The Barrel Tipper comes with several safety features. There is a safety chain to secure the tipper to the mast of a forklift, a spring pin to prevent unintentional releasing of the hook latch, and a pinned over-center latch to prevent the gripper from opening.

FEATURES

- Spring safety pin to prevent accidental release
- Pinned over-center latch to prevent gripper from opening
- Safety chain for securing barrel tipper to forklift mast
- Spring return latch
